Emma thought that she was finally going to get to start living her life, not that she regretted the last twenty-three years. Her choice to raise her son on her own had been an easy one to make, but as any parent can tell you, having a child means sacrifice. Working two (sometimes three) jobs, shopping thrift stores, and spending weekends clapping at Little League tournaments are all fine memories, but Emma had never really had a life of her own. Wrenching herself out of one bad relationship only to fall into another, romance had not been on her radar for quite a while. Suddenly, it seemed, she looked up and she was forty-something, the parent of an adult, self-sufficient young man away at university, and her life was all her own. Now what? Young enough to start fresh, old enough, hopefully, to know which mistakes to avoid. Being alone didn't have to mean being lonely, and she was fine with that. What she didn't count on was the way fate can throw a twist into the best laid plans in the form of dark strangers, dilapidated, old houses, and deadly diseases. If she thought the first half of her life had been the rough, her limits were about to be tested. She would also discover how true love can heal what may seem broken.

From award-winning author Jewell Parker Rhodes comes a powerful novel set fifteen years after the 9/11 attacks in a classroom of students who cannot remember the event but live through the aftermath of its cultural shift. When her fifth-grade teacher hints that a series of lessons about home and community will culminate with one big answer about two tall towers once visible outside their classroom window, D è ja can't help but feel confused. She sets off on a journey of discovery, with new friends Ben and Sabeen by her side. But just as she gets closer to answering big questions about who she is, what America means, and how communities can grow (and heal), she uncovers new questions, too. Like, why does Pop get so angry when she brings up anything about the towers? Award-winning author Jewell Parker Rhodes tells a powerful story about young people who weren't alive to witness this defining moment in history, but begin to realize how much it colors their every day.

They each sense a powerful connection at their first meeting, but no one could have ever imagined the incredible scenario about to unfold, forever altering the lives of all involved. . DEANNA A new business venture takes priority over romance,

yet she longs to meet her Mr. Right. At the same time, she's being haunted by a recurring nightmare, relentless in its tormenting attacks until desperation leads her to a dark and dangerous world. JOSH At the pinnacle of a demanding career, with everything he worked for finally coming together, he begins to yearn for the serious relationship his cherished grandmother, ANNA, insists he needs. Neither could have ever suspected that a vintage keepsake would clear the path to true love. FAITH Deanna's closest friend, her greatest ally through the best and worst of times, she believes she could supply an antidote for the horrifying dreams that are threatening her friends' well-being. If only Deanna would let her. RIVKA and DAVID Fortified by young love, emboldened by circumstances, they stand strong against a ruthless enemy in a grueling fight for their lives.

You feel like you've done something before...even as you do it for the very first time. You engage in a conversation and suddenly realize you've spoken those same words before...to the very same person. Yet you're positive it's the first time you've ever met. Déjà vu is the eerie sensation of "remembering" an experience or situation that never occurred. Scientific research into déjà vu has revealed intriguing theories, ranging from short-term memory misfires to neurophysiological disorders. Yet other theories suggest more paranormal causes for déjà vu, such as glimpses into parallel realities. Perhaps the true explanation lies somewhere in between. But déjà vu is only one of the many mysteries of the mind. The Déjà vu Enigma also explores: Memory lapses, missing time, and fugue states. The brain as both receiver and transmitter of reality. Altered states of perception and consciousness, from hallucinations to religious visions. Contagious thought, curses, demonic possession, and mass hysteria. Dream states, lucid dreaming, and precognitive dreams. The Grid and parallel universes as travel routes for mind trips, brain flips, and time slips. Come journey through a world as vast and uncharted as the Cosmos. A journey through the Inner Universe—the human mind.

The New York Times bestselling author of the Undead Novels takes on reincarnation in this unforgettable Insider Novel about the pitfalls in past—and love—lives... Leah Nazir lives in a world where the past can and will come back to bite you in the ass. No, not teething ghosts—reincarnation! As an Insider, it's Leah's job to delve into the murky and (often) deadly former lives of her patients. And she knows a thing or two about danger after killing her mother's murderer with the help of new beau, Archer Drake. Isn't he the best? Now, it's time to take their relationship to the next level, but not in any way Leah could have predicted. She and Archer head to Chicago to meet his parents—and try to figure out why Archer's dad killed his brother decades ago. When someone tries to sabotage their investigation, Leah must decide if the Drake family past is a deal breaker...

Precious Cummings is back but this time her own daughter is causing mayhem. Aaliyah Mills Carter was born into street royalty. Her mother, Precious, hustled her way from a project chick to a hood legend. Then she has two fathers, Xavier Mills, who is a rap superstar turned industry mogul and Nico Carter who heads up a lucrative drug empire with his partner Genesis. Finally, she has a grandfather Quentin, who spoils her the way he was never able to do for his daughter Precious. You would think being anointed the Princess would be enough for Aaliyah but it's not she wants more. Instead of simply relishing in the luxury she was born into, Aaliyah schemes and manipulates, determined to carve out her own lane. She brings her best friends

Amir and Justina along for the ride. Does Aaliyah have the same street savvy as her mother to lead them to the top or will it end in disaster? There is only one Precious Cummings but has her daughter Aaliyah been groomed to take over the reign or will her mother have to step in and save her from herself? Find out in Bitch A New Beginning.

In the year 2023 Saskia Brandt, detective with the European FIB, comes back from holiday newly single, tired and full of sadness. Heading straight back to the office she finds no peace, only her receptionist dead and no suspects. Given only 12 hours to clear her name she sets to work on unravelling the mystery, one that proves greater than the sum of its parts. David Proctor is just an academic eating his breakfast until he gets a phone-call telling him the prototype computer - Ego - he has been loaned is now the only one left. Meanwhile someone has broken into his house, someone who wants him to go back to the lab where his wife died in a bomb attack 20 years before. As the mysteries and intrigue envelop Saskia and David they are forced to unpick their own pasts. Because in Deja Vu you find that things aren't as they seem, truth is a matter of perspective and that the past can change just as quickly as the future. Deja Vu is a taut science fiction thriller that will keep you guessing, a gripping read and a sharp reflection on identity in a digital world.

From the author of the New York Times bestselling Undead novels comes a delightfully addictive new series about past lives and bad habits—and one woman paranormally predisposed to getting at the bottom of both. It's her job. You couldn't arrest for murder someone who had killed in his last life. You couldn't bring a civil suit against such people, either. They could only be legally penalized for what they did this time around—and what a dark circus the legal system had been before that legislation passed! (It was still a dark circus, but perhaps not as dark.) But you could spot them, and watch them. You could set traps for them. Leah Nazir is an Insider. Reincarnation is her business. But while her clients' pasts are a mess, Leah's is nothing short of tragedy. She's been murdered. A lot. If left to that bitch, destiny, it'll happen again. Leah wants to know who's been following her through time, and who's been stalking her in the present... P.I. Archer Drake has been hired by Leah's mother to keep an eye on her. But the more time he spends watching, the more he finds himself infatuated. Before long, he even finds himself agreeing to help find the person who wants her dead. Over and over again. Now going full-on "rewind," Leah hopes it can stave off the inevitable. After all, she's grown fond of this life—and even fonder of nerdy Archer. But changing her pattern means finding out who her killer is today. And as Leah fears, that could be anyone she has come to know and trust. Anyone.

Sometimes love can bloom where you least expect it... For Sarah Peterson, it's time for change. Coming out of a dead end relationship and having had enough of city life, she just needs to escape and have a fresh start – a new job, a new home and a new lifestyle. So when her Auntie Kay unexpectedly offers her the opportunity to take over her flower shop, Seaside Blooms, the timing could not be more perfect. She could escape to the beautiful seaside town of Whitsborough Bay, start a new chapter in her life – and learn how to run a business! But, as she packs up her life in London, she isn't prepared for the discovery of a clairvoyant reading that's been missing for twelve years. All of the predictions have come true, except one: she's about to meet the man of her dreams. Oh, and his name is Steven... As she prepares for the biggest move of her life, Sarah can't help but

Referring to a past that never was, *déjà vu* shares a structure not only with fiction, but also with the ever more sophisticated effects of media technology. Tracing the term from the end of the nineteenth century, when it was first popularized in the pages of the *Revue philosophique*, Peter Krapp examines the genealogy and history of the singular and unrepeatable experience of *déjà vu*. This provocative book offers a refreshing counterpoint to the clichéd celebrations of cultural memory and forces us do a double take on the sanctimonious warnings against forgetting so common in our time. Disturbances of cultural memory—screen memories, false recognitions, premonitions—disrupt the comfort zone of memorial culture: strictly speaking, *déjà vu* is neither a failure of memory nor a form of forgetting. Krapp's analysis of such disturbances in literature, art, and mass media introduces, historicizes, and theorizes what it means to speak of an economy of attention or distraction. Reaching from the early psychoanalytic texts of Sigmund Freud to the plays of Heiner Müller, this exploration of the effects of *déjà vu* pivots around the work of Walter Benjamin and includes readings of kitsch and aura in Andy Warhol's work, of cinematic violence and certain exaggerated claims about shooting and cutting, of the memorial character of architecture, and of the high expectations raised by the Internet. Peter Krapp, lecturer in the Department of Cultural Studies and Comparative Literature at the University of Minnesota, coedited "Medium Cool," a special issue of the *South Atlantic Quarterly* on contemporary media theory. He has published in the fields of German studies, media studies, and literary theory and, since 1995, has acted as editor of the Hydra Web site for theories of literature and media.
