So here is easiest and cheapest way to interface SD card with arduino. you can use the audio output from arduino via a switch or sensor. you can play any type of sound, music and recording but that audio will be in to.wav file. If it is in.mp3 or any other audio type then we will convert it into.wav file.

Audio Player Using Arduino With Micro  
SD Card : 7 Steps ...

In order to have the Arduino access the LEDs, you have to build a small circuit on a solderless breadboard. The breadboard has two parts: the inner rails (which run width-wise) and the outer rails (which run

# File Type PDF Arduino Music And Audio Projects

length-wise). The rails are electrically connected along their lines, so you can connect components without actually soldering them together.

Arduino Music and Audio Projects:

Amazon.co.uk: Cook, Mike ...

I'm the happy owner of the book Arduino Music and Audio Projects by Mike Cook. I am experimenting with the theremin in chapter 5. The code comments in the book say that it spans 6 octaves. However, mine

# File Type PDF Arduino Music And Audio Projects

By Mike Cook  
does not seem to span that much. I am using potentiometers instead of the distance sensor in the original project.

Arduino theremin, ref. book: Arduino Music and Audio ...
