KAD 300/DP and KAMD300 are the designations of Volvo Penta's powerful new marine diesel engines in the 300-horsepower performance range. The new engine range and the new Duoprop drive further strengthen Volvo Penta's product program for planing boats. The two high-tech new diesel engines for planing boats extend Volvo Penta's well-known 40 series, produced at the company's Vara plant in Sweden ...

A state-of-the-art resource on head, neck, and skull base surgical procedures in children Pediatric otolaryngology is a rapidly expanding field with remarkable technological advances that have improved the quality of life for young patients. Many highly complex pediatric head and neck procedures are not commonly performed, resulting in a paucity of resources. Atlas of Pediatric Head and Neck and Skull Base Surgery by renowned surgeons Dan M. Fliss, Ari DeRowe, and an impressive group of interdisciplinary innovators fills a gap in the literature. The richly illustrated atlas features a detailed discussion and guidance on groundbreaking surgeries developed and currently performed by top academic surgeons in the field, many of whom contributed to this book. The introductory section lays a solid foundation of knowledge, with discussion of pediatric anatomy, distinctive topography of the skull base, anesthesia and pain control considerations, and imaging modalities. Fifty-four subsequent chapters encompass a rich spectrum of approaches and pediatric pathologies, organized by head and neck; skull base and craniofacial; airway, voice, and swallowing; trauma; and reconstruction sections. Surgical chapters include an introduction; evidence-based guidelines; preoperative, anesthetic, intraoperative and postoperative considerations; techniques and positioning; extensive references; and more. Key Features Concise, targeted descriptions of preoperative, perioperative, and postoperative considerations enhance the ability to deliver high-quality surgical care and achieve optimal outcomes Bulleted list of highlights at the end of each surgical chapter provide a quick reference Detailed, high-quality color illustrations and surgical photographs enhance understanding of impacted anatomy and techniques This is an essential reference for otolaryngology, maxillofacial, plastic reconstructive, and neurosurgery residents, as well as for pediatric otolaryngology and head and neck fellows. Practicing head and neck surgeons and pediatric otolaryngologists will also find it beneficial.

Fifty short stories contained in this book talk about the life of Bosnian women from a poor working class family, who came into this world by accident, unplanned, without tears of joy and some parent's elation at least not by her father.Her childhood and future life were very difficult, but strong will, the real, pure and true will, it did so she made something of the life what no one did around her. She managed to realize her dreams, to be a successful business woman, a good wife and mother and to give her children a much better life than it was her Bosnian version.Pedeset kratkih price sadrzanih u ovoj knjizi, govore o zivotu bosanske zene iz jedne siromasne radnicke porodice, koja je na ovaj svijet dosla slucajno, neplanski, bez suza radosnica i nekog ushienja od strane roditelja, bar ne od strane njenog oca.Njeno djetinjstvo i dalji zivotni put bili su jako teski, ali jaka volja, ona prava, cista i iskonska, ucinila je da ona od zivota napravi nesto sto niko u njenom okruzenju nije. Uspjela je da ostvari svoje snove, da bude uspjesna poslovna zena, dobra supruga i majka i da svojoj djeci pruzi daleko bolji zivot nego sto je bio njen.
